

SENTOSA COVE

S I N G A P O R E

No Buggies & PMDs

- ✚ Footpaths on the foreshore are for residents to jog or to enjoy strolls with their children, loved ones or pets.
- ✚ For the safety of foot traffic, only bicycles are allowed. Cyclists should not speed when riding on the footpaths.
- ✚ All users should be socially responsible and share the use of the footpath.

No fishing

- ✚ Don't break the rules. It is illegal to fish at any point at Sentosa and those who flout the rules will be financially penalized.

No swimming

- ✚ For their own safety, residents and guests are advised not to swim in the open sea. There are
 - strong currents;
 - sharp rocks on the rock bund and on the sea floor;
 - floating sea barriers (FSBs); and
 - an active shipping channel beyond the FSBs

Leash your dog and pick up after it

- ✚ All dogs should be leashed. This is to prevent dogs from inadvertently attacking people and also to prevent them dashing out on to the roads.
- ✚ Be responsible for your pet and clean up after your dog. It is everyone's responsibility to maintain a clean and pleasant environment.

Slippery when wet

- ✚ The footpaths have a pebble wash finishing which has a rough surface with anti-slip properties but residents and guests are advised to walk with caution especially when the path is wet after rain. You don't want to take an unnecessary tumble.
